 Ahmedabad, IN

Summary

I **build** things for the web!

I'm a **professional** Frontend Developer with over 7 years of experience **passionate** about creating **engaging user interfaces** and bringing **products to life**. My journey in web development **started back in 2013** when I discovered Facebook in **school days**, sparking my **interest** in the field. Today, I enjoy working with **modern** languages and frameworks like **JavaScript, React.js, and Next.js**, building seamless, dynamic **web applications**.

Work Experience

(Freelance experience not included)

Frontend Engineer (Remote)

Lloyd's Register · Germany

Nov 2021 - Present

- I concentrate on designing innovative features utilizing React components for the Cloud Fleet Manager. My responsibilities encompass converting React to TypeScript, developing optimised new features, participating in team meetings, and planning sprints.

Software Developer (React)

Yapsody · Mumbai

June 2019 - July 2021

- Managed a team of four full-time engineers, played a key role in shaping the team's roadmap, implemented best engineering practices, and provided mentorship to colleagues.
- Performed code reviews and contributed to the company by interviewing and facilitating the onboarding process for new team members.

React JS Developer

UpforceTech · Ahmedabad

Jan 2018 - May 2019

- Oversaw client relationships, coordinated sprints, mentored junior team members, and pursued continuous learning of emerging technologies, while also contributing to offshore projects.

Software Developer (PHP & UI/UX)

Don't Scratch Your Head · Ahmedabad Sep 2016 - Dec 2018

- Engaged in PHP development and UI design.
- Developed high-quality, high-performance, visually appealing, and maintainable front-end code compatible with various browsers and devices using React.js, JavaScript, HTML5, and CSS3.

Education & Qualificatoin

Diploma In Computer Engineering

2013 - 2016

Gujarat Technological University

GPA: 7.50

Recommendations

Swayanshu Panda · 1st

Building tech @Appbrew

June 1, 2021, Swayanshu worked with Kaleem Elahi on the same team

This guy is a gem. I have worked very closely with him for about half a year. I love his go getter attitude. The detail he spends on designing a piece of code before actually writing it is very much appreciated. I would recommend him for any kind of senior frontend role involving Web development, SPA, PWA. Great knowledge and very good team work is clearly visible in his work.

Socially connected:

Zane Staggs · 1st

Front End / Full Stack Software Engineer

August 31, 2021, Zane managed Kaleem Elahi directly

Kaleem is a no nonsense Engineer who gets the job done. He is quick to jump on features and his coding is rock solid. Highly recommended for any team!
